

Mission Statement

We, the adult education staff strive to work as an effective team. We are an integral part of education that links business/industry and agencies within our community. We provide lifelong, continuous learning for a diverse adult population enabling students to overcome barriers and enhance the quality of life for themselves and their families. We utilize practical skills with an eye toward technological advancement.

Philosophy

The overall goal of the Tri-Rivers Joint Vocational School is to continue the task of the home schools in preparing their youth and adults to become economically, socially, emotionally, and physically competent adults as they assume family, job and citizenship roles in our democratic society. This means that Tri-Rivers must not only prepare its youth and adults for useful and satisfying employment, by providing technical knowledge and work skills necessary for employment it must be involved in the development of the whole student.

Classes designed with the adult student in mind.

EQUAL EDUCATION OPPORTUNITY
It is the policy of Tri-Rivers Center for Adult Education that educational programs and activities are provided without regard to race, color, national origin, gender, disability, or age.

Nurse Aide Training

Emeline S. Kelly MSN, ACNS-BC, RN
Nursing Education Programs Manager
Cynthia Salyer RN
Nurse Aide Program Coordinator

Course Description

This 84-hour program provides training in basic nursing care by the use of classroom instruction, lab practice, and actual clinical experience. The content follows guidelines mandated by the Ohio Department of Health and Ohio Department of Education. Emphasis is placed on attitudes and behaviors of nurse aides working with the elderly and how to assist the elderly in maintaining the highest level of functioning possible. Topics include:

- Resident rights
- Safety issues
- CPR Certification
- Proper handwashing
- Nutritional needs of the elderly
- Death and dying
- Proper bedmaking
- How to manage emotional stress
- Feeding the patient
- Effective communication
