$$$ Available from the State of Ohio to
Upskill your workforce through TechCred!

No matter your industry, technology is having an impact on the future of your business and the nature of your work. Ohio's TechCred program gives businesses the chance to upskill current or future employees to help them qualify for a better job in today's tech-infused economy.

What is TechCred?

The program funds up to 20,000 technology-focused credentials over the next two years.
For a credential to qualify, the credential:
- Must be short-term, less than one year to complete
- Must be technology-focused
- Must be industry-recognized

What's in it for employers?

Employers know that hiring tech talent is expensive. TechCred helps employers offset the training costs of taking their dedicated workforce and making them their top tech talent.

How do businesses get started?

1. Identify skills needs and employees
2. **Partner with an education or training provider, like Tri-Rivers!**
3. **Apply online: TechCred.Ohio.Gov**
4. Enroll employees in the program
5. Submit proof of completion of credentials
6. **Receive reimbursement for completed credentials**

Enrollment ends Oct. 31, 2019
Training can be scheduled during the next 18 months.

For more information, visit
TechCred.Ohio.Gov

Tri-Rivers/RAMTEC is a TechCred training provider!

Check out our technology-focused credentials below. Several more manufacturing, healthcare and business credentials are pending! This is an AMAZING opportunity for companies.
