- 5) For this quarter reporting period 04/01/2021-06/30/2021; a total of 79 students received an Emergency Aid Grant under Section 18004(a)(1) of the CARES Act.
- 6) The institution determined that eligible students were those that met the following criteria: an active student, enrolled in a 600-hour or longer program as of May 1, 2021 who had completed the 2020-2021 Free Application for Federal Student Aid (FAFSA). The awards were prioritized by students with *exceptional need*. The school used the student's Expected Family Contribution (EFC) to identify students with *exceptional need*. Grant fund awards were calculated based on a sliding scale correlated to a student's EFC. The EFC range was \$0 - \$5,711 and the awards ranged from \$1,000 to \$600. The school also identified ten students with an exceptional need due specifically to the coronavirus preventing normal student council activities for the school year and awarded student specific grants to meet a normal cost of attendance expense for this specific cohort. These grants ranged from \$210 to \$678.
- 7) The 79 students that were eligible to receive the Emergency Financial Aid Grant were provided a form with an allocation of grant funds that they could request. By returning a signed form they agreed that the funds were to be used for emergency costs due to the coronavirus pandemic that were part of their overall Cost of Attendance. They were given the option to accept and have the grant issued directly to them, to credit their student account with the HEERF grant funds to cover eligible expenses or to acknowledge that they do not need any grant funds at this time and to decline the grant.
